Comfort is nothing without control. Specifically, the precise control and smart features of an American Standard Heating & Air Conditioning comfort control. Every one is powerful, intuitive and easy to use, and built with American Standard's reputation for quality and dependability. When your independent American Standard Heating & Air Conditioning dealer installs your control, your home will feel better than ever before. Because you've moved up to a higher standard of comfort.

American Standard programmable controls help reduce energy consumption up to 15% and lower your carbon footprint with an energy savings schedule.*

SMART, PRECISE CONTROL AT YOUR FINGERTIPS.

AccuLink™ Platinum ZV
(AZONE950)

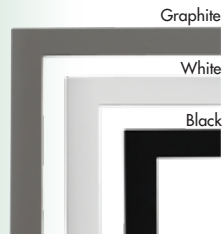

Bright and brilliant in so many ways.

With the introduction of the AccuLink™ Platinum ZV comfort control, American Standard Heating & Air Conditioning will change your perception of controls forever. Precise temperature control is only the beginning; the Platinum ZV also features powerful zoning and scheduling options, and is designed to accentuate your life with smart features like live weather radar, weather alerts, customizable backgrounds and the ability to display digital photos. All on a bright, seven-inch high definition color touchscreen.

Optional Bezel Designs

Your Platinum ZV can be framed in your choice of select colored bezels* to match your home's decor.

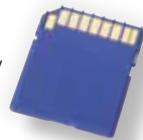

*Optional bezels available in Graphite, White and Black. Control ships with Graphite bezel (shown right).

When not in use, the Platinum ZV can display a single photo, or a continuous slide show.

The Platinum ZV's upgradeable firmware means you'll always have the latest features and functionality via wireless connectivity on your home network.

Scheduling

Get a handle on your energy consumption with scheduling. The system will keep your family comfortable when they're home, and use less energy when everyone's away.

Dealer Information

For routine maintenance or repair, the screen can display your dealer contact information instantly.

Alerts and Reminders

The Platinum ZV keeps you informed by alerting you if regular maintenance is required, or if a filter needs changing.

Customizable Background Colors

To blend into your décor seamlessly, the Platinum ZV can display one of eight contemporary backgrounds.

Live Weather

Stay informed of local weather with live updates, alerts and even real-time radar data.

Clean Air Cycle

The Platinum ZV's Quick Clean and Allergy Clean cycles provide boosted clean air for a few hours or a whole day, to combat household odors or provide extended relief to allergy sufferers.

Connect your Platinum ZV to the smart, hardworking components of an American Standard matched system for unparalleled performance, efficiency and comfort.

Air Conditioner

Best for warmer climates, it works with your indoor unit to keep your home cool.

OR

Heat Pump

Ideal for homes in milder climates, the heat pump works with your furnace or air handler to move heat out of your home in the summer, and into your home in the winter.

1

Air Handler

Circulates air throughout all-electric homes to heat and cool them all year long.

OR

Furnace

Uses oil or natural gas to warm your home in winter, while circulating heated and cooled air all year long.

2

EASY AND ACCURATE COMFORT CONTROL.

No matter what your system or budget, American Standard Heating & Air Conditioning has a hard-working, reliable comfort control that will keep your home perfectly comfortable.

Gold ZM

With AccuLink™ communicating capabilities and dual fuel compatibility, the Gold ZM offers powerful, versatile control. Other features dedicated to your comfort include 7 day programmability, four heating and two cooling stages, a humidity sensor and automated filter reminders.

Gold XM

The Gold XM is focused on your comfort, and features a humidity sensor, effortless 7 day programming and automatic changeover from heating to cooling.

Silver SI+

The Silver SI+ keeps you comfortable with up to three heating and two cooling stages. It also offers air filter reminders, a backlit display and keys, and automatic changeover between heating and cooling.

Silver XI

With the ability to control up to two heating and two cooling stages, the easily-programmed Silver XI provides precise control and the ability to display actual temperature and set temperature simultaneously.

Silver SI

A clear, easy-to-read display and backlit keys make the Silver SI a smart choice. For your convenience, it includes an energy savings mode and automatic changeover between heating and cooling.

Designed for comfort. Built to last.

For more than a century, families have trusted American Standard Heating & Air Conditioning to keep their homes comfortable. Today, our home comfort systems continue to push the boundaries of efficiency and performance, while still delivering on our proud history of quality, durability and substantial value. Welcome your family home to a higher standard of comfort. From American Standard Heating & Air Conditioning.

Run your home from wherever life takes you.

Nexia™ Home Intelligence allows you to manage your home remotely using most web-enabled mobile devices.* With just the touch of a button, you can unlock a door or turn on lights for security, or monitor and adjust your heating and cooling from a distance to save energy. Simply put, Nexia™ Home Intelligence gives you and your family all the promises of home automation in the most simple and accessible way. All so you can connect with your home, even when you're not at home. Ask your American Standard Heating & Air Conditioning dealer for details.

*Nexia Remote Climate Access included with the purchase of an AccuLink™ Control. Live video viewing included with the purchase of a Schlage® camera. Other features may require a Nexia subscription fee.

Our dealers will put you in your comfort zone.

Your independent American Standard Heating & Air Conditioning dealer is a highly trained professional with years of experience who'll work with you every step of the way in choosing the system that's right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you'll be.
